

PORTABLE BATTERY POWERED LED LIGHTING

AUSTRALIAN LIGHTS @ WORK

Smith Light is an Australian based manufacturer of patented portable battery powered LED Lighting solutions for Construction, Mining Ex (Explosion Proof), Emergency, Industrial and Recreational markets.

Our patented technology is a result of our commitment to creating a culture of innovation, we take a hands-on pragmatic approach to developing winning products that accommodate unique and evolving requirements.

Smith Light design and manufacturing initiatives are based on three non-negotiable criteria, Quality, Reliability and Value. We will continue to be inventive and to ensure that our products meet globally recognised Quality and Safety Standards.

Our (Ex) Explosion proof products have been certified by TestSafe Australia, a NSW WorkCover owned body. Our Ex Lighting range is certified Zone 0 Group 1, Group IIA T2.
